# NEWSLETTER

**November 1-15, 2006**

# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **November 1-15, 2006.**

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse/clearinghouse.shtml](http://www.opr.ca.gov/clearinghouse/clearinghouse.shtml)

Questions regarding federal grant notices should be directed to **Sheila Brown.**

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Senior Planner

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

## MEMORANDUM

### Governor's Office of Planning and Research State Clearinghouse

**Date:** December 5, 2003

**To:** All CEQA Lead Agencies

**From:** Terry Roberts, Director, State Clearinghouse

**Re:** Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CDs must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov).

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE  
1999 through 2005**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

**SUMMARY OF CEQA DOCUMENT SUBMITTALS BY YEAR AND BY TYPE**

EIS	Draft Environmental Impact Statement (federal)
OTHER	Other types of documents, including Final EIRs, Early Consultation notices, plans, etc.

# CEQA Documents

## Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

## CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Wednesday, November 01, 2006</u></b>			
2001111151	Interstate 5 Corridor Improvement Project from SR-91 to I-605 Caltrans #7 La Mirada, Norwalk, Downey, Santa Fe Springs, Buena Park--Los Angeles, Orange Construct freeway improvements to I-5 from SR-91 to I-605. The proposed project consists of constructing a minimum of one High Occupancy Vehicle Lane and one mixed flow lane in each direction on I-5.	<b>EIR</b>	01/05/2007
2006022129	Jameson Canyon Water Treatment Plant Improvement Project Napa, City of Napa--Napa The City is proposing to upgrade and expand the Jameson Canyon Water Treatment Plant (JCWTP) to have an ultimate daily average treatment capacity of 20 MGD and an ultimate hydraulic peak hour treatment capacity of 24 MGD in order to consolidate its water operations from their Hennessey and Milliken Water Treatment Plants to the JCWTP. Expanding the JCWTP would also allow the City to utilize and treat its full allotment of State Water Project water supplies that is delivered through the North Bay Aqueduct (NBA). Being able to fully utilize its NBA water entitlements would help the City meet current and future demands consistent with its General Plan and provide contingencies for drought-proofing the City's water supplies. Under the proposed plan, the day-to-day operations of the HWTP and MWTP would be reduced and would come on-line as necessary to supply water during high demand periods, and in emergency and drought situations.	<b>EIR</b>	12/18/2006
2006032129	Montezuma Wind Project Solano County Rio Vista--Solano The project would construct between 16 and 23 wind turbines that would provide a total generation capacity of up to approximately 37 MW of electricity. The Reconductoring Project is a separate but related project that involves the reconductoring of an approximately 11-mile segment of the Vaca Dixon-Contra Costa Power Plant Switch-yard 230-kV transmission circuits to accommodate increased electrical transmission capacity to serve Montezuma Wind and other energy projects.	<b>EIR</b>	12/18/2006
2006042124	Albany High School Cougar Field Improvements Albany Unified School District Albany--Alameda, Contra Costa Provision of improved and expanded educational and recreational opportunities at existing athletic field including replacement of turf football/soccer field and dirt track with synthetic material, installation of lights for evening use.	<b>EIR</b>	12/15/2006
2006012149	City of Hollister Domestic Wastewater System Improvements Project and San Benito County Water District Recycled Water Facility Project Hollister, City of Hollister--San Benito The proposed project consists of improvements to the Domestic Wastewater Treatment Plant (DWTP) to increase the quality of effluent produced and to increase the treatment and disposal capacity of the plant. The proposed project would reduce the amount of water disposed of by percolation by developing disposal sprayfields and providing tertiary treated effluent as a recycled water	<b>FIN</b>	

## CEQA Daily Log

Documents Received during the Period: 11/01/2006 - 11/15/2006

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Wednesday, November 01, 2006</u></b>			
	supply for agricultural and urban irrigation.		
2006064001	EA for the Integration and Developmental Testing of HPM Systems at Edwards AFB, CA U.S. Air Force Lancaster--Kern, Los Angeles, San Bernardino The U.S. Air Force proposes to conduct integration and developmental testing of high power microwave (HPM) systems at Edwards Air Force Base (AFB), California, and within restricted area R-2515. HPM is a directed energy system. All targets will be physically located on or above Edwards AFB, inside restricted area R-2515. Up to 100 acres could be designated for use; however, each target area would be limited to 5 acres. Requirements: Up to 100 ground test hours in 2006, 600 ground test hours in 2007, and 672 flight and ground test hours (180 flights [including chase aircraft] and 48 ground tests) each year from 2008 to 2012. BMP would be implemented to ensure no significant impacts would occur.	<b>FIN</b>	
2006091080	Draft Remedial Investigation Work Plan for the Former Trabuco Bombing Range, Rancho Santa Margarita Toxic Substances Control, Department of Rancho Santa Margarita--Orange DTSC is proposing to approve a draft Remedial Investigation Work Plan (RI) pursuant to authority granted under Chapter 6.8, Division 20, California Health and Safety Code (H&SC). The RI includes the following activities: soil investigation, geophysical survey to characterize ordinance and explosives (OE) concentration and location, and a non-time critical removal action at Trabuco, a Formerly Use Defense Site (FUDS). Project activities will also include intrusive excavation of anomalies identified by the geophysical survey and may include demolition of OE.	<b>FIN</b>	
2002032041	BART Warm Springs Extension Bay Area Rapid Transit District Fremont--Alameda A station, 5.4-mile extension of the BART system starting at the existing Fremont Bart Station to a new station in the Warm Springs district of Fremont, with an optional station at Irvington. The alignment generally is within the Union Pacific Railroad corridor (between Interstates 680 and 880) in southern Alameda County. The alignment includes a subway under Fremont Central Park.	<b>FOT</b>	
2006111001	Structural and Materials Engineering Building Project University of California, San Diego La Jolla--San Diego The proposed project would consist of construction of a new 184,000 gross square foot (gsf) building that would provide Structural Engineering Workshop space, offices for Structural and Materials Engineering and Visual Arts laboratories. The building would be designed as a four-story building with a partial basement. The new building would house approximately 60 new and existing faculty and approximately 200 new and existing graduate students. Lyman Lane located to the south of the project site, would be realigned and become a major pedestrian route called Lyman Walk which would be an extension of the existing Lyman Walk located to the west.	<b>MND</b>	11/30/2006

<b><u>Documents Received on Wednesday, November 01, 2006</u></b>			
2006111004	Menifee Union School District Menifee East Elementary School No. 11 Menifee Union School District --Riverside The Menifee Union School District (MUSD) is proposing to build a new Elementary School No. 11. The proposed school site consists of approximately 12.2 acres of land located within a larger planned development identified by the County of Riverside as Menifee East (Specific Plan 247). The proposed school site would be bordered by Holland Drive to the south, Street B to the east, with surrounding residential development and open space to the north and west. This school would serve the residents of the Menifee East.	<b>MND</b>	11/30/2006
2006111010	Upland Basin Expansion Project, Phase 2 Upland, City of Upland--San Bernardino The project includes construction of the remaining basin improvements consisting of a jurisdiction berm (20-foot maximum height), an emergency spillway and low flow outlet to the San Antonio Channel, drainage systems and disposal of unacceptable materials. These improvements will increase the basin volume to 1,220 acre-feet (ultimate basin capacity). In addition, the project will remediate gypsum materials deposited at the site.	<b>MND</b>	12/01/2006
2006112001	Wolf Creek Village Grass Valley, City of Grass Valley--Nevada The project includes the following applications: (1) A General Plan Amendment to change the Land Use designation from Commercial to Urban High Density Residential; (2) a Rezone Application to change the Zoning designation from C-2 to R-3, Planned Unit Development; (3) a Tentative Subdivision Map to create 71 lots (62 condominiums); and (4) a Development Review Application for the building design and site plan review.	<b>MND</b>	11/30/2006
2006112008	La Loma Sanitary Sewer Lift Station Upgrades Modesto, City of Modesto--Stanislaus The proposed project includes constructing a new sewer lift station in Moose Park, abandoning the existing La Loma Lift Station drywells, abandoning-in-place the existing creek crossing, adding a new 10" pipe encased in a 24" carrier pipe under Dry Creek, and adding a new manhole on the east side of dry creek. Gravity flow from the existing lift station wet well will be routed through a 10" pipe encased within a 24-inch steel carrier pipe north to the new lift station. A new 6" forcemain from the new lift station will tie in to an existing 6-inch forcemain. A new 8-inch pipe encased within an 18-inch steel carrier pipe will be installed El Rio Avenue to replace an aging pipe that currently serves residential units.	<b>MND</b>	12/01/2006
2006112002	Angels Camp 2020 General Plan Angels Camp, City of Angels Camp--Calaveras Comprehensive update of the 1995 Angels Camp General Plan. General Plan 2020 anticipates a population of approximately 5,394 residents in 2020. The product of nearly four years of planning efforts and community meetings; the plan includes twelve elements: Land Use, Housing, Circulation, Conservation and Open Space, Noise, Public Safety, Public Facilities and Services, Cultural Resources, Air Quality, Economic Development, Community Identity, and Parks and Recreation.	<b>NOP</b>	11/30/2006

2006111002	Tentative Parcel Map PM-06-026 (Tract 18307) Victorville, City of Victorville--San Bernardino To allow for the creation of fifteen parcels from one existing parcel on vacant commercial land.	<b>Neg</b>	11/30/2006
2006111003	Mariner's Mile Waterfront Walkway Newport Beach, City of Newport Beach--Orange Construction of a public walkway along the waterfront of Newport Bay from the Arches Interchange (intersection of SR-55 and Pacific Coast Highway) and the Balboa Bay Club locate at 1221 W. Coast Highway.	<b>Neg</b>	11/30/2006
2006111005	Annexation No. 01-2006, Pre-zoning Case No. 154-06, General Plan Amendment No. 80-06 Carson, City of Unincorporated--Los Angeles The proposal is to annex the Rancho Dominguez area; to amend the City of Carson General Plan and to pre-zone the area with zoning consistent with the General Plan. The existing zoning under the County of Los Angeles includes: A-2 (Heavy Agriculture), C-M-DP (Commercial Manufacturing - Development Program overlay), M-1.5 (Restricted Heavy Manufacturing), M-2 (Heavy Manufacturing), M-2-DP (Heavy Manufacturing - Development Program overlay) and B-1 (Buffer Strip). The existing General Plan designation in the County of Los Angeles General Plan is Major Industrial. The City of Carson intends to adopt sphere of influence General Plan designations for the Rancho Dominguez Annexation Area. The subject area is approximately 1,710 acres in area. The proposed Carson General Plan Land Use map depicts the areas to be designated Light Industrial, Heavy Industrial, General Commercial and High Density Residential. The proposed Carson Zoning Map depicts the areas to be designated as Manufacturing Light - Design Overlay Review (ML-D), Manufacturing Heavy (MH), Commercial General - Design Overlay Review (CG-D) and Residential Multi-Family (RM-12 du/acre).	<b>Neg</b>	11/30/2006
2006112003	Head-Riders of Northern California - Use Permit (UP 05-06) and Tentative Parcel Map (TPM 06-12) Butte County Oroville--Butte 1. Use Permit to allow an indoor riding arena at an existing non-profit therapeutic horseback riding center. The project will be in 2 phases. 2. Tentative Parcel Map to divide a 133 acre parcel into two parcels (71 acres and 63 acres).	<b>Neg</b>	11/30/2006
2006112004	TPM2005-0007 Yuba County Marysville--Yuba A proposal to bring into compliance 4 legal lots created in 1873, with a potential to construct 4 single-family dwellings on APN 003-120-006. The subject property, 27.3 acres in size, is located within the A/RR:10 "Agricultural/Rural Residential - 10 acre minimum" zone off Palm Avenue, outside of the community of Loma Rica. Each resulting parcel will be legally non-conforming ranging in size from 6.6-7.4 acres.	<b>Neg</b>	11/30/2006

2006112005	Hecker Pass Master Infrastructure Plan Gilroy, City of Gilroy--Santa Clara Master infrastructure plan for the Hecker Pass Special Use district.	<b>Neg</b>	11/30/2006
2006112006	Rancho Hills / Deer Park Gilroy, City of Gilroy--Santa Clara Subdivision of 70.7 acres into 71 residential lots.	<b>Neg</b>	11/30/2006
2006112007	Alternative Management Standards for Treated Wood Waste Toxic Substances Control, Department of -- The proposed project involves two rulemaking processes: 1. Emergency regulations which will extend the current statutory management standards of TWW for 120 days beyond the statutory sunset date of January 1, 2007. 2. Permanent regulations which, when completed, will establish comprehensive alternative management standards for the TWW.  The proposed regulations would establish alternative management standards for specified non-RCRA hazardous treated wood waste otherwise subject to California Hazardous Waste Control Law and the resultant hazardous waste management standards. Existing requirements for the management of non-RCRA hazardous treated wood waste are found in Health and Safety Code (HSC section 25150.7(e)). These requirements provide streamlined handling standards for treated wood waste. Subject to a sunset date of January 1, 2007, HSC section 25150.7 conditionally exempts generators, transporters, and other entities managing treated wood waste prior to disposal from the requirements of the hazardous waste control law.	<b>Neg</b>	11/30/2006
1998041146	Upper San Diego River Improvement Project San Diego County, Department of Planning and Land Use Unincorporated--San Diego Construction of the Lakeside Sports Complex which includes three major fields and one minor field and associated amenities and access roads and the acquisition of the 15 acre parcel from the Lakeside Sanitation District and an easement for vehicular access to the sports complex, and the purchase in lieu fee of a 20' equestrian trail easement to Mast Boulevard.	<b>NOD</b>	
2006011066	Colorado River 500 Specific Plan EIR Blythe, City of Blythe--Riverside The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0104-R6 pursuant to Section 1602 of the Fish and Game Code. The project consists of (1) removal of riparian vegetation 20 feet x 500 feet on either side of the southern portion of the lagoon; (2) dredging the existing lagoon and utilizing a 300 feet x 300 feet dredge spoil site; (3) installation of a boat dock; (4) replacement of an existing culvert; (5) extension of an existing boat ramp; (6) installation of a pedestrian bridge. The project will permanently impact 3 acres of riparian vegetation and jurisdictional waters identified on the site.	<b>NOD</b>

<b><u>Documents Received on Wednesday, November 01, 2006</u></b>			
2006052091	<p>2002-51 Zoning Amendment, Tentative Parcel Map and Conditional Use Permit - Baldwin</p> <p>Calaveras County Planning Department</p> <p>Angels Camp--Calaveras</p> <p>The applicants are requesting a Zoning Amendment from A1-X (General Agriculture - existing parcel size) and M2 (General Industry) to RA (Residential Agriculture) for 16.6 +/- acres and M1 (Light Industry) for 4 +/- acres. Also requested is a Tentative Parcel Map to divide the 20.6 +/- acres into two parcels, one 5.1 +/- acre parcel and one 15.5 +/- acre parcel. Additionally, they seek a modification of the existing Conditional Use Permit bring the existing storage facility into compliance and modification of the existing LP Gas distribution facility to provide for 30,000 gallon LP Gas tank in conformance with N.F.P.A. 58 Regulations bringing that facility into compliance. The present industrial zoned area is 3.4 +/- acres in size; however, it does not encompass the present development.</p>	<b>NOD</b>	
2006061167	<p>Plaza Bonita Bike Path</p> <p>San Diego County Department of Public Works</p> <p>--San Diego</p> <p>Construction of 3,150 linear feet of all-weather bike path and multi-use trail within an existing graded trail and along Plaza Bonita Road which is paved. The project involves improving an existing unofficial trail currently in use to improve safety.</p>	<b>NOD</b>	
2006071007	<p>Nisqualli Road Street Improvement Project</p> <p>Victorville, City of</p> <p>Victorville--San Bernardino</p> <p>Nisqualli Road exists primarily as a two-lane road with dirt shoulders that traverses a residential area in the southeasterly portion of the City of Victorville. Nisqualli Road extends in an east/west direction from just east of Hesperia Road to Mariposa Road which is adjacent to and parallels the I-15 Freeway. The City of Victorville General Plan (Circulation Element) designates Nisqualli Road as an Arterial roadway. Arterials have an 84-foot right-of-way with four traffic lanes, two parking lanes, and curb and gutter. The proposed road improvements will extend from about 200 feet westerly of Balsam Road easterly to a location about 300 feet westerly of Hesperia Road. From this point to Hesperia Road the existing road section will be repaved (rehabilitated). Total length of the proposed new roadway is approximately 12,160 lineal feet, or 2.30 miles. Minor property acquisition will be required along much of the road alignment, including some drive-way access to individual homes that have encroached into the proposed Nisqualli Road right-of-way.</p>	<b>NOD</b>

2005011055	The Buckley School Campus Enhancement Plan Los Angeles City Planning Department Los Angeles, City of--Los Angeles The proposed Buckley School Campus Enhancement Plan is intended to address the needs of existing and future school programs, including the provision of adequate teaching space for all educational levels, specialty teaching spaces, and multipurpose spaces for educational gatherings that cannot occur in a standard classroom. The project also provides for the modernization of existing facilities, improved disabled access, and energy efficiency upgrades. Included within the Campus Enhancement Plan are vehicular circulations and queuing improvements, increased parking within a new enclosed parking facility, the demolition of six buildings, construction of five new/replacement buildings, a central plant, and addition to and/or renovation of several existing buildings.	<b>EIR</b>	12/18/2006
2005022046	Highway 1/Terrace Avenue Signalization and Roadway Improvements Half Moon Bay, City of Half Moon Bay--San Mateo The project includes widening Highway 1 between Main Street and Grandview Boulevard from two lanes to four lanes, installing a traffic signal at the existing intersection of Highway 1 and Terrace Avenue, and additional related improvements. Approval of the project would include the issuance by the City of a Coastal Development Permit for the proposed work as well as amendments to certain sections of the City's Land Use Plan and Circulation Element. Land Use Plan and Circulation Element amendments would be necessary to provide project approval consistency.	<b>EIR</b>	12/18/2006
2005091086	Ponte Vista Los Angeles, City of Los Angeles, City of--Los Angeles Multi-family residential housing community consisting of 2,300 dwelling units (25% restricted to seniors over 55 years in age); 10,000 sq. ft. of private retail uses; 6-acre publicly accessible park area with 2 baseball diamonds; and approx. 5 acres of common areas and parks (including community clubhouse and pool for residents). The project will require a General Plan Amendment and Zone Change (providing a Specific Plan for the project), and a Tentative Tract Map.	<b>EIR</b>	01/30/2007

2006111007	<p>Piru Creek Bank Protection Project Ventura County Watershed Protection District --Ventura</p> <p>The Ventura County Watershed Protection District is proposing to provide the residents of Piru with flood and erosion protection from erosive flood flows in Piru Creek. Erosion has resulted in loss of land and threatens further property damage. These improvements include construction of "bendway weirs." Five weirs would be constructed of ungrouted rock and would direct water away from the eroding west bank of the creek. Temporary work includes an access road in the creekbed, temporary stockpiling of material, and temporary vegetation removal. These improvements would also reduce erosion that is threatening an existing, historic railroad trestle across Piru Creek and just upstream of Highway 126.</p>	<b>MND</b>	12/01/2006

**Documents Received on Thursday, November 02, 2006**

2006118023      Water System Filtration and Upgrade for Zanetta Restroom      **NOE**

Parks and Recreation, Department of  
San Juan Bautista--San Benito  
Install sand and sediment filter onto the main water supply line for the Zanetta Restroom building at San Juan Bautista SHP. Remove the existing shut-off valve and all service plumbing and install a new valve approximately two feet to the east. The new water valve and supply line will then be under the current footing in line with the fixture supply line, enabling access for future repairs. Upgrade existing water supply lines to all fixtures to ensure filtration prior to connecting to control valves. Replace all plumbing from main supply valve with new pipe; all underground piping will be galvanized from main valve to above ground, and joined to copper piping with dielectric coupling. The Zanetta Restroom is a non-historic structure located near the Zanetta House within the San Juan Bautista State Historic Park. Ground disturbance will be minimal and no work shall extend beyond park property.

In the unlikely event that a historic feature such as a dump or stone wall or footing is encountered subsurface, work in that vicinity will stop immediately and remain halted until a State Archaeologist can expose and evaluate the find and provide appropriate treatment.

2006118024      Silo Removal      **NOE**

Parks and Recreation, Department of  
Carmel--Monterey  
Remove dilapidated and non-functional silo located within Point Lobos Ranch due to safety concerns. The left side of the silo has come off its foundation and is leaning towards the street, posing a hazard to vehicles and pedestrians. The instability of the silo also poses risk of damage to the adjacent historic-era barn structure, which is functional and in fair condition. Minimal excavation will occur during the removal of the existing foundation of the silo.

A State Historian will be present to document the silo during its demolition. Salvageable material will be retained for possible reconstruction or re-use in the future.

All work will be done on park property and will not be done in conjunction with, or as part of, other projects.

	Caldwell. Other proposed project features include intersection improvements with traffic signals, left-turn channelization, minor highway realignment, construction of a raised or depressed median, paved shoulders, curb, gutter and sidewalks, widening of waterway crossings, right-of-way acquisition, and utility relocation.		
2005092043	DEIR - Panhandle Annexation and Planned Unit Development Sacramento, City of Sacramento--Sacramento The project proposes the annexation of a 1,430-acre site (currently located in unincorporated Sacramento County) known as the "Panhandle" to the City. The project area consists of two portions: the Southern Portion, or the 835-acre area to the south of Del Paso Road, between Del Paso Road and I-80, Northgate Boulevard and Gateway Park Boulevard; and, the Northern Portion, or the 594.7-acre area to the north of Del Paso Road, between Del Paso Road and Elkhorn Boulevard. Upon annexation, the Northern Portion is proposed to be developed with a Planned Unit Development (PUD) with a variety of low-, medium-, and high-density residential uses (a total of 3,075 residential units), commercial uses, an elementary school, a middle/high school, and recreation and park spaces. Streets, water and sewer lines, and drainage facilities would be installed as part of the proposed development. No development entitlements are proposed for the Southern Portion.	<b>EIR</b>	12/18/2006
2006111013	Beulah Payne Elementary School Inglewood Unified School District Inglewood--Los Angeles The proposed project includes the construction of a new modular classroom building on existing school grounds (2.9 acres) and six adjacent parcels (0.72 acre). The new modular building includes 15 classrooms (20,000 square feet), with a library/media/computer center that is intended to replace existing relocatables. Additional play areas will be made available to the students through the removal of relocatables. A total of 13 additional off-street parking spaces will be provided to accommodate the proposed project.	<b>MND</b>	12/04/2006
2006112020	West Sunyside Erosion Control Project (PCRE T20060687) Placer County Planning Department --Placer Erosion control project to reduce sediment load to Lake Tahoe.	<b>MND</b>	12/04/2006
2006112022	Rosen Ranch Subdivision Cotati, City of Cotati--Sonoma This project is an application for a 7-lot subdivision of a 1.37-acre property located along John Roberts Drive and backing onto Old Redwood Highway. The property is adjacent to the recently completed Altman Acres subdivision. Lots would range in area from 6,000 square feet to 8,408 square feet in area. Preliminary plans have been submitted for two detached single-family homes proposed for construction on Lots 1 and 2, with design criteria proposed for Lots 3 through 7. Houses would be designed as custom homes in traditional craftsman style architecture. The project would also include a sound attenuation wall on the southwesterly side of the property. That wall would sit 10 feet above the finished grade of lots 1 and 2 and would have the appearance of a 7-foot high wall from Old Redwood Highway.	<b>MND</b>	12/04/2006

2006112024	San Ramon Gas Station Renovation San Ramon, City of San Ramon--Contra Costa Renovation of the existing gasoline service station is proposed. The project consists of installation of two new gasoline dispensers, a new canopy above the fueling area, demolition of the existing convenient store and constructing a new 1,533 sq. ft. convenient store.	<b>MND</b>	12/04/2006
2006112025	Brookview Tracy, City of Tracy--San Joaquin The applicant is requesting an amendment to the Concept Development Plan (CDP) for the Garden Square Planned Unit Development to change the designation of the subject parcel from a school site to a 95 lot residential subdivision.	<b>MND</b>	12/04/2006
2006112026	Rio Vista Municipal Airport Rio Vista, City of Rio Vista--Solano The City of Rio Vista is proposing to adopt an Airport Master Plan Update for the Rio Vista Municipal Airport. The process to prepare the updated plan began in 2004. Within the update process expected future aviation demand at the Airport, as well as conformance of the Airport to current Federal Aviation Administration (FAA) airport design and operating standards were evaluated. The Airport Master Plan Update identifies facility needs through 2025.	<b>MND</b>	12/04/2006
2006112027	Chiala Two-Lot Subdivision Santa Clara County Morgan Hill--Santa Clara Proposed two-lot subdivision of an existing 100.00-acre parcel located at the end of Maple Avenue, adjacent to Paseo Robles Road (private road), within the Hillside Zoning district. The proposed subdivision will divide the existing parcel into two 50-acre lots. The existing parcel is not currently under a Williamson Act Contract.	<b>MND</b>	12/04/2006
2006112028	Farmer Two-Lot Subdivision Santa Clara County Gilroy--Santa Clara The proposed project is for a two-lot subdivision of an existing 80.2-acre parcel located on Canada Road. The zoning of the parcel AR-sr (Agricultural Ranchlands-scenic road). Both Canada Road and Gilroy Hot Springs Road are designated scenic roads. The proposed subdivision will divide the existing parcel into two 40.1 acre lots. The existing parcel is currently under a Williamson Act Contract (#67019) and the property is used for cattle grazing.	<b>MND</b>	12/04/2006
2006112029	San Antonio Road Median & Street Improvements Project Palo Alto, City of Palo Alto--Santa Clara Capital Improvement Project (PE-00104) includes an environmental assessment and concept plans to replace the deteriorating infrastructure on San Antonio Road and frontage road from Alma Expressway to Highway 101. The work includes replacement of street trees, related curb and gutter replacement, road resurfacing, and median landscape replacement. Construction is planned to be funded and constructed in phases with the improvements from Alma Expressway to Middlefield being the first area to receive improvements. Exact limits will be	<b>MND</b>	12/04/2006

	determined by available funding and actual construction costs.		
2006112036	<p>San Francisco International Airport Combustion Turbine Project San Francisco Planning Department South San Francisco--San Francisco</p> <p>The project is a 48 MW natural gas-fired, simple-cycle power plant. The proposed plant would consist of a single combustion turbine-generator linked with a selective catalytic reduction (SCR) emission control system, and an 85-foot-tall exhaust stack. Auxiliary onsite equipment includes a cooling tower, gas compressor, switchyard, emissions control equipment, two water storage tanks, and a plant services building.</p> <p>The project would connect with the SFIA electrical distribution network through an underground 115 kV electrical transmission line extending for 1.05 miles from the plant to its terminus, adjacent to South Airport Boulevard, where it connects to substations BA and CA. Along that route, the project transmission line would also connect with a new PG&amp;E switchyard and a new project substation (CB Substation) both located along North Access Road.</p> <p>The project would also include a new, 0.95-mile-long natural gas pipeline that would run within the North Access Road right-of-way to connect with PG&amp;E Line 101 at a location near South Airport Boulevard. Water for the plant would be supplied by the SFIA potable water system, and wastewater would be sent to the SFIA Mel Leong Wastewater Treatment Plant (MLWTP) adjacent to the project site.</p>	<b>MND</b>	12/05/2006
2002061026	<p>Coalinga 2025 General Plan Update Master Environmental Impact Report Coalinga, City of Coalinga--Fresno</p> <p>A Master EIR will be used to identify all potential environmental impacts associated with the update. The Master EIR will be prepared in accordance with the guidelines specified in Section 21100 of the CEQA Guidelines.</p>	<b>NOP</b>	12/04/2006
2006111012	<p>Chinatown Project San Luis Obispo, City of San Luis Obispo--San Luis Obispo</p> <p>Proposed development of a 2.12 acre downtown mixed-use center totaling 312,500 square feet (sf), including retail (57,200 sf), office (7,000 sf), 63 residential and live/work units (91,800 sf), parking (91,900 sf/200 spaces), and a hotel (58,600 sf), generally of 4 to 6 stories, but reaching a maximum of 7 stories or 78 feet in height. A pedestrian plaza level at mid-block on Morro Street would allow entry level access to the restaurant, and hotel. New two-level retail buildings plus offices above (three stories) would front on Monterey Street, a residential courtyard/common area would be accessed off Palm Street; live/work units with retail storefronts are proposed along Morro Street, and 3 to 4 story hotel and retail uses would front Chorro Street. Two levels of below-grade parking with access from Morro Street would serve both residential and commercial uses. In addition, in-only access for the hotel would be provided on Monterey Street. The proposed project would consolidate private and public structures and surface parking.</p>	<b>NOP</b>	12/04/2006

	citric acid and diammonium phosphate.		
2006082052	Thornton Water System Improvement Project (Phases 5 and 6) San Joaquin County --San Joaquin Construction of a 200,000-gallon aboveground water storage tank to facilitate a future low-volume treatment unit to improve secondary water quality and provide adequate fire flow capacity to the town of Thornton.	<b>NOD</b>	
2006118025	Change in Purpose of Use of License 3555 (Application 9000) State Water Resources Control Board, Division of Water Rights --San Bernardino The Petitioner seeks approval of a petition to add irrigation as a purpose of use for License 3555 and irrigate five acres of existing turf playing area in a county park. The playing fields are fully developed and served with groundwater at this time. The five acres is within the currently authorized place of use for domestic use of water.  The proposed project involves re-drilling or rehabilitation of existing silted well at Lake Gregory. The current well provides irrigation to the adjacent turf playing area. If re-drilling is not possible, a new well will be drilled immediately adjacent to the silted well. The project would provide up to four acre-feet annually of water for irrigation of the playing fields from April 1 to October 31 each year. Rehabilitation of the existing well will occur on existing parklands and will not expand the parklands or significantly change its existing use.	<b>NOE</b>	
2006118026	Upper Gregory Creek Acquisition Resources Agency, The Truckee--Nevada Truckee Donner Land Trust, a private non-profit organization, will acquire this parcel for the purposes of fish and wildlife habitat protection. After the acquisition, the land trust will work towards preventing erosion and sediment on these very steep mountain slopes.	<b>NOE</b>	
2006118027	Calash Workplan Pursuant to Enforcement Order for to Remove, and Conduct pH Adjustment as Necessary, Fly Ash Piles in Kern County Toxic Substances Control, Department of Unincorporated--Kern The project is a work plan for treatment of hazardous waste fly ash. This work plan is required pursuant to an enforcement action for illegal acceptance of ash with pH levels greater than 12.5 that makes it hazardous waste. The facility is not permitted to accept waste that is hazardous waste. The only property of the fly ash that makes it hazardous is the pH level. The material is 92.5% by weight calcium carbonate equivalent. The order requires all hazardous ash to be treated or removed for the site within 90 days of the approval of the work plan.	<b>NOE</b>	
2006118028	Removal Action Workplan, Proposed Elementary School Site, Sanger Unified School District Toxic Substances Control, Department of Sanger--Fresno The RAW for the proposed Site addresses the removal of up to 154 cubic yards (cy) of soil contaminated with chlordane from the perimeter and within the footprint (crawl space) of the former residential structure. No student, faculty, staff, or unauthorized persons will be on the site during the proposed remedial actions scheduled to be completed prior to completion of construction of the proposed	<b>NOE</b>

	school. Access to the project site shall be limited by the exclusion zone. The exclusion zone shall include an area at least 140 feet x 170 feet area in the southwestern portion of the site (location of the former residential structure), excavation stockpile area, and excavation equipment. Appropriate temporary fencing has been installed and will be maintained during excavation process to ensure public and worker safety.		
2006118029	<p>Proposed Augustine Ramirez Intermediate School Site - Removal Action Work Plan (RAW) Approval Toxic Substances Control, Department of Corona--Riverside</p> <p>The Removal Action Workplan (RAW) has been prepared to address the removal of methane gas at the proposed Augustine Ramirez Intermediate School property. The Corona Norco Unified School District (CNUSD) has elected to pursue the construction of the school, and therefore has prepared a RAW. The draft RAW presents an evaluation of several removal action alternatives to address the presence of methane and identifies preferred alternative. Due to the concentrations and pressures of methane detected, and the depth of the detections, the RAW proposes a Passive Methane Venting System (mitigation system) as the preferred alternative. The selected methane control measures include a sub floor membrane barrier, a passive venting system, and permanent sampling and detection probes above the membrane. An Operation and Maintenance (O&amp;M) Agreement will ensure the school district will implement on-going operation, monitoring, data acquisition, reporting, and maintenance activities. The control measures, proposed under this alternative, are in accordance with DTSC's Advisory on Methane Assessment and Common Remedies at School Sites (June 2005) and meet or satisfy all applicable or relevant and appropriate requirements (ARARs) as identified in the RAW.</p>	<b>NOE</b>

2006118031	Removal Action Workplan, proposed Mountain Oaks Charter School and Mountain Ranch Community School, Calaveras County Office of Education Toxic Substances Control, Department of --Calaveras The Removal Action Workplan (RAW) for the proposed Mountain Oaks Charter School and Mountain Ranch Community School (site) addresses on-site management and control of soils impacted with naturally occurring asbestos (NOA). Various types of engineering controls will be used to separate the NOA contaminated soils from students, staff, administrators, and maintenance personnel. Among these is importing approximately 10,000 cubic yards of clean cover fill. An Operations and Maintenance (O&M) Plan will protect the health of students, staff, administrators, maintenance personnel, and visitors to the campus and provides for upkeep, monitoring, and reporting on NOA engineering controls at the campus. No student, faculty, staff, or unauthorized persons will be on the Site during the proposed remedial actions that will occur during construction of the school. Off-site disposal of NOA containing soils is not planned. The soil generated during grading and construction will be contained on site.	<b>NOE</b>	
2006118032	Planned Development Permit Calaveras County Planning Department --Calaveras Issue a Planned Development Permit to allow the construction of a single story, retail building on an existing lot, zoned C2-PD (General Commercial - Planned Development). The proposed design meets or exceeds all applicable Calaveras County development and site preparation standards.	<b>NOE</b>

<b><u>Documents Received on Monday, November 06, 2006</u></b>			
2006112033	Igo-Ono Elementary School Waterline Project Igo Ono Platina Union School District --Shasta The project sponsor is proposing to install +/- 6,500 lineal feet of 8-inch pipeline to provide a reliable water supply to the Igo-Ono Elementary School. The project will include +/- 1,300' of pipeline on school property, +/- 4,450' of pipeline on private property south of the school, and +/- 750' of pipeline in the Shasta County right-of-way along Clear Creek Road. The pipeline will connect with an existing Clear Creek Water District 8-inch main located on the north side of Clear Creek Road, west of the entrance to the West Central Landfill. The project will also include a 20,000-gallon water tank and booster pump on school property. A 30' permanent easement and a 20' construction easement will be established on the private property.	<b>MND</b>	12/05/2006
2006112035	Hercules Youth Center Hercules, City of Hercules--Contra Costa The City of Hercules proposes to build a 3,152-sq. ft., single-story Youth Center on a previously graded site adjoining the existing Community/Swim Center and next to Refugio Creek. The project will also include a 21-space parking lot and landscaping improvements.	<b>MND</b>	12/05/2006
2006112039	ALS User Support Building University of California, Berkeley Berkeley--Alameda The USB project would consist of demolition of Building 10 and construction of a three-story, approximately 30,000 gross square-foot (gsf) building. The USB would be approximately 48 feet in height and is limited to three standard height laboratory/office floor levels. The existing Building 10 is 35 feet high at its peak. The USB would be used for precision equipment assembly and staging, chemical and biological prep laboratories, storage and office space, and to potentially support a figure beamline extension from the adjacent Advanced Light Source (ALS) building. The USB would be directly adjacent to the ALS for the direct transport of large, heavy, and sensitive equipment. For this reason, the first floors of both buildings would be aligned.	<b>MND</b>	12/06/2006
2004121066	Meadowpass Road Extension Walnut, City of Walnut--Los Angeles The project provides for the acquisition of right-of-way and the construction of a roadway, including sidewalks, equestrian/ hiking trails, utilities and drainage facilities on the two remaining missing segments on Meadowpass Road between Amar and Pierre Roads. The roadway segments include 80 feet of right-of-way, an equestrian/ hiking trail on the east side and a sidewalk on the west side. The improvements align with the completed improvements on both the north and south ends of the existing roadway. The street is identified in the Circulation Element and shown on the Land Use/Circulation Map as a "Secondary Street - Future" of the Walnut General Plan (1978) between Amar Road on the north and Lemon Avenue on the south.	<b>NOP</b>	12/05/2006

2006112034	Hercules Multimodal Transit Facility San Francisco Bay Area Water Transit Authority Hercules--Contra Costa The proposed project involves the development of a multimodal transit facility on the Hercules waterfront in Contra Costa County. The project site is located on Bayfront Boulevard on the former Hercules Powder Company property in the City of Hercules, approximately one mile west of I-80. The facility would include a new ferry terminal in the vicinity of Hercules Point, a nearby passenger train station on the existing Capitol Corridor line, and a transit bus terminal.	<b>NOP</b>	12/05/2006
2006111015	R2006-00301-(2), RCUP200600023-(2), RENV200600023-(2) Los Angeles County Department of Regional Planning Los Angeles, City of--Los Angeles An application for a Conditional Use Permit to authorize a new scrap metal processing facility. The facility will sort, store, and ship non-hazardous, high temperature alloy metals in an existing 14,076 square foot building. The building contains 3,480 square feet of office space on two levels, a 600 square foot processing area, and the remainder to be used as space to store materials. A truck loading dock and loading ramp are located at the rear of the building. All activities will occur within an enclosed building during the first phase. The applicant proposes to fence the rear yard, install a baler, and sort and store materials outdoors in a future expansion. Materials will be collected from scrap dealers throughout Southern California and stored until container loads are accumulated. Materials will be trucked to the Port of Long Beach for shipment overseas. The applicant estimates that the facility will process between 50 and 75 metric tons of materials per month. Maximum processing capacity of the site is estimated at 200 metric tons of material per month. Ten persons will be employed at the site during a single shift between 7:00 am and 3:00 pm Monday through Friday. Forklift, sheer, and sorting tables will be used within the building. Approximately four truck round trips will visit the site per week including both delivery and exportation.	<b>Neg</b>	12/05/2006
2006111016	TR066561/RCUPT200600084 / North of the Northerly Terminus of Phantom Trail, Santa Clarita Valley Los Angeles County Department of Regional Planning Santa Clarita--Los Angeles The proposed project is an application for a Tentative Tract Map to subdivide the vacant subject parcel for 33 detached single-family residences and 3 open space lots. Fifteen of the 82.23 acres of the subject property will be developed while approximately 67 acres will remain as natural and undisturbed open space. The subject property was part of two previous withdrawn applications for a zone change and a specific plan amendment. The project proposes 288,000 cubic yards of grading and requires a Conditional Use Permit for density controlled development within a hillside management area. Project site access will be taken from Phantom Trail which will be connected to a proposed internal Street A. The project site will be served by the Santa Clarita Water and the Santa Clarita Valley Sanitation District.	<b>Neg</b>	12/05/2006

	porch area attached to the proposed home. The project will result in the disturbance of approximately 2,760 square feet of a 2,760 square foot parcel. The proposed project is within the Residential Multi-Family land use category.		
2006111018	Greenspace Dev Permit San Luis Obispo County Cambria--San Luis Obispo Request by Greenspace The Cambria Land Trust for a Minor Use Permit/Coastal Development Permit to allow for the re-location and restoration of a historic Chinese Temple/Fraternal Hall, construction of wood fencing, decomposed granite pathways, parking, outdoor storage area for native pine saplings, 1,000 gallon water tank, interpretive signage, and a viewing deck near the creek. The project will result in the disturbance of approximately 12,000 square feet of a 20,364 square foot parcel. The project approval also includes the permitting of the demolition of a structure on the property that occurred through the issuance of an emergency permit in 2001. The proposed project is within the Commercial Retail and Recreation land use category and is located on the south side of Center Street (at 2264 Center Street), 150 feet east of Burton Drive, in the community of Cambria. The site is in the North Coast planning area.	<b>Neg</b>	12/05/2006
2006111019	Conditional Use Permit 2006-046 Big Bear Lake, City of Big Bear Lake--San Bernardino The applicant proposes to develop a 2.84 acre lot with a 10,000 square foot retail store, a 2,500 square foot fast-food restaurant with a drive-through window, a 100 square foot automated teller structure, and a 49,010 square foot hotel. The hotel would consist of a 36,530 square-foot building with 55 guest rooms with a pool, exercise room, and lobby to serve hotel guests. The building will consist of two above-ground floors, one partially below-ground floor, and one basement floor that is entirely below ground. The height of the above-ground portion of the building will be 33.25 feet. Twelve stand-alone hotel suites are also proposed, ranging in size from 900 square feet to 1,800 square feet each, totaling 12,480 square feet. The total building area of the hotel, including the separate suites, is 49,010 square feet, and the total building area of the entire project is 61,610 square feet. One hundred and fifty-four parking spaces will be developed to serve the project. An existing concrete block drainage channel will be covered to provide parking spaces above the channel.	<b>Neg</b>	12/05/2006
2006111026	ND for 500 Niños Drive Santa Barbara, City of Santa Barbara--Santa Barbara The Zoo includes several parcels leased from the City of Santa Barbara. As an allowed use in the P-R Zone, the Zoo receives approximately 425,000 to 450,000 visitors annually. The applicant proposes an updated Master Plan for the Santa Barbara Zoo for the next five years. The proposed Master Plan consists of six project components: (1) the California Condor Exhibit; (2) the Lemur/Langur Exhibit Renovation; (3) the Discovery Pavilion; (4) the Wave; (5) the Service Yard; and (6) the Channel Island Fox Renovation.	<b>Neg</b>	12/05/2006

2006112037	Brian Hunt Special Permit (SP-06-10) for Removal of 396 Trees Under a <3-acre Conversion, Utility Exemption, and a 150 foot Fire Clearance Humboldt County Community Development Services --Humboldt A Special Permit is required for timber removal in a residential zone. The timber removal will include 2.33 acres under a < 3 acre conversion, 2.05 acres under a 150 foot Fire Safe Exemption and 0.25 acre under a Utility Exemption (total area of tree removal will be 4.63 acres). The trees to be removed include Sitka spruce, grand fir, Douglas fir, redwood, western red cedar, western hemlock, red alder, and willow. In total, 225 trees with a breast height diameter of over 12 inches will be removed. It is anticipated that 80,000 to 90,000 board feet will be generated from this project. Access to the log landing will be via Bartow Road. Approximately 20-25 loads will need to be hauled away. No timber will be removed from the stream side management area for Mill Creek which runs along the northern property line. The timber harvest will facilitate future residential development including outbuildings, yard, landscaping, and solar access.	<b>Neg</b>	12/05/2006

2006111030	1776 Eucalyptus Hill Road Santa Barbara, City of Santa Barbara--Santa Barbara The applicant proposes to subdivide a 172,137 net square foot lot into two parcels. The parcel is a steep east-facing slope of 35%. Parcel A would be 75,301 net square feet with an average slope of 36%. Parcel B would be 96,836 net square feet with an average slope of 35% and would contain the existing approximately 9,000 square foot single-family residence. Ingress to both lots would be provided via the existing driveway apron located primarily on Parcel B. No residential development is currently proposed for Parcel A, although a conceptual study has been prepared to illustrate development potential. The building envelope for Parcel A is 5,200 square feet, with a 28% slope. The applicant also proposes to remove a paved driveway that leads to the bottom of the hill, restore the hillside to its natural topography, and install a new storm drain (160 linear feet underground, 260 linear feet aboveground) that outlets at the edge of the creek, thus correcting an existing erosion problem.	<b>Neg</b>	12/06/2006
2006111031	Cordero Development (13 and 20 Old Ranch Road) Laguna Niguel, City of Laguna Niguel--Orange The project proposes to subdivide a 26.3-acre parcel into two custom single-family parcels. The site development permit would allow for grading and construction of two custom single-family homes.	<b>Neg</b>	12/06/2006
2006111032	Banker House Planned Development Atascadero, City of Atascadero--San Luis Obispo The proposed application includes the construction of 9 new residential units with one existing Historic Colony Home on individual lots. The project includes rehabilitation and restoration of the Colony Home and surrounding gardens and carriage house.	<b>Neg</b>	12/06/2006

2006112044	Hydrogen Fueling Facility Project Sacramento Municipal Utility District Sacramento--Sacramento The proposed project consists of a new hydrogen fueling facility at an existing parking lot with PV panels over the parking spaces, an information area, and onsite landscaping. The 0.8-acre proposed project site would be located adjacent to and west of SMUD's headquarters building west parking lot on the northwest corner of 61st and S Streets.	<b>Neg</b>	12/06/2006
2006112045	UC Davis Health and Wellness Center University of California, Davis Davis--Yolo UC Davis proposes to construct and operate a Health and Wellness Center to provide a new medical facility for UC Davis students. The new building would provide routine medical treatment, counseling, pharmacy, and physical therapy services for UC Davis students living on and off campus. The proposed 71,000 gross square foot, three-story building would replace the existing student health center. The new building would be located on the central campus at UC Davis west of Activities and Recreation Center on the west side of La Rue Road and south of Parking Lot 35. Parking Lot 35 would expand by approximately 41 spaces. Vehicle access to the building would be through Parking Lot 35 which is accessed from Orchard Road. The approximately two-acre site is currently used for recreational basketball and as a plant nursery by the UC Davis Arboretum. These uses would be relocated to other portions of the central campus as part of the proposed project. The existing student health center buildings located south of Russell Boulevard and west of California Avenue would be reused for academic or administrative purposes.	<b>Neg</b>	12/06/2006

	<p>Santa Clara Valley Water District --Santa Clara</p> <p>The Santa Clara Valley Water District is considering the passage of Proposed Ordinance 06-__ (Ordinance), the repeal of existing ordinance 83-2 and passage of a Resolution adopting the District's Water Resources Protection Manual (Manual). Draft Ordinance 06-__ would revise and repeal Ordinance 83-2, which was last revised in 1985, and would establish a process to obtain Encroachment Permits for Modifications on District Facilities and/or District Easements. It also establishes a procedure for the administration and issuance of such Encroachment Permits. Proposed Ordinance 06-__ repeals Ordinance 83-2, under which the District required and issued permits for certain activities on certain streamside parcels throughout Santa Clara County. The permit function exercised under 83-2 will now be carried out by the local municipality in which the project is located. Any agency who exercises the permitting authority will carry out the requirements of CEQA on a project specific basis. The Resolution would adopt the District's Water Resources Protection Manual (Manual), which would serve as the basis for the District's evaluation of Encroachment Permit applications. The Manual implements the model guidelines and standards recommended by the Santa Clara Valley Water Resources Protection Collaborative following a review of the District's existing regulations.</p>

1987110914	Cactus Basin No. 3 Project Rialto, City of Rialto--San Bernardino In 1988, the City of Rialto previously prepared an EIR for the construction of three retention basins and a segment of a flood control channel (Rialto Channel), collectively termed the Upper Cactus Bains. The original 1988 EIR was prepared for a project described as the construction of three unlined retention basins (Basins A, B and C); a rectangular concrete channel approximately 3,450 feet in length from the south side of Highland Avenue to Basin C (the most downstream basin); and a system of basin inlets and outlets. In 2006, none of the improvements had been constructed, however sand and gravel excavation work, as approved in the 1988 EIR, has been conducted on all three basins. The San Bernardino County Flood Control District is now moving forward to enhance a portion of this flood control system evaluated in the 1988 EIR. The proposed project is to increase the capacity of Basins 3 and 3A (previously named Basin C). The original stated objective is still valid, which was to eliminate any potential increase in flood hazard due to planned development in the northern portions of the City, and to help alleviate stress on other storm water facilities located downstream of the proposed project in order to allow the regional flood control system to function more effectively.	<b>NOP</b>	12/08/2006

	Single family residential category underlying the proposed assisted living and apartment areas to Multi-family residential and changing two city owned parcels adjoining the proposed tract from Single family residential to Public Facility.		
2006042118	2005-95 Tentative Parcel Map for Kenneth R. and Ninette Kyle Shearer Calaveras County Planning Department --Calaveras The applicants are requesting approval of a Tentative Parcel Map to divide 2.5 +/- acres into two parcels.	<b>NOD</b>	
2006072124	Foothills Geophysical Survey CUP-06-03/CDP-06-04 Humboldt County Planning Department --Humboldt A Conditional Use Permit and Coastal Development Permit application to conduct a short-term geophysical data acquisition (seismic) survey for evaluating natural gas resources in the project area. The proposed Grizzly Bluff 3D project is needed to acquire and evaluate data for potential future development of natural gas reserves in the State of California. The objective of the proposed project is to locate untapped natural gas sources with potential for development both within and/or outside of existing natural gas fields.	<b>NOD</b>	
2006118065	Fee Acquisition of the Concord-Mt. Diablo Courthouse by the Administrative Office of the Courts from the County of Contra Costa under the Trial Court Facilities Judicial Council of California Concord--Contra Costa Fee acquisition of the Concord-Mt. Diablo Courthouse by the Administrative Office of the Courts from the County of Contra Costa under the Trial Court Facilities Act of 200 (SB 1732, Escutia). Continue existing use as a court facility for the Superior Court of California, Contra Costa County.	<b>NOE</b>	
2006118070	Installation of (7) Relocatable Buildings for the Homestead/Frontier Special Education Program Grossmont Union High School District Santee--San Diego Project involves a minor addition to the existing West Hills High School site, including the installation of 7 pre-manufactured buildings, as well as an accessory parking lot, playfield, and fire lane for two special education programs. The buildings will include 9 classrooms, as well as administrative and multi-purpose room space, and will result in an increase in student capacity of approximately 120 students, compared to an original school capacity of 2500 students. These programs are being relocated to this site due to the loss of certain site leases from the County of San Diego.	<b>NOE</b>	
2006118071	San Luis Creek Ramp Widening Boating and Waterways, Department of --Merced This project will widen the current boat ramp with the addition of a section 53 feet wide and 120 feet long. The project will also install a concrete abutment to support the new boarding float, drive five 18-inch concrete piles and reconfigure the maneuvering area. Reconfiguring the maneuvering area also requires the relocation of the existing fish cleaning station. Construction for the ramp will likely require the installation of a turbidity screen to minimize turbidity while excavating material to allow for proper grading for the additional boat ramp area. Construction to reconfigure the maneuvering area and relocation of the fish cleaning station will all take place above the high water line.	<b>NOE</b>

2006111055	SOCO West Parking Structure Fullerton, City of Fullerton--Orange The proposed project involves the development of a public parking structure to expand transit-serving parking facilities at the Fullerton Transportation Center, which is located near the intersection of Commonwealth Avenue and South Harbor Boulevard. The proposed project includes construction of a 3-story (approximately 35 foot high) parking structure with 5 levels of parking (includes 1 level of subterranean parking and parking on the upper level). The parking structure would provide approximately 1,000 parking spaces.	<b>MND</b>	12/12/2006
2006111058	Hilton Garden Inn Hotel (Development Permit Application No. 06-034) Grover Beach, City of Grover Beach--San Luis Obispo Planning application to allow for consideration of the development of portion of an overall 4.09 acre parcel for a 74,732 square foot hotel in the northern portion of the City of Grover Beach, located southerly of State Highway 101, easterly of North 4th Street. The specific request involves the development of a 1.82 net acre site and consists of 134 hotel guest rooms, a dining area, meeting rooms, an outdoor pool area, and parking and landscaping. This application involves review and consideration of a General Development Plan, a Specific Development Plan, Architectural and Site Plan Approval, and a Coastal Development Permit. Site development will include street frontage improvements to El Camino Real, a city street, and the development will be connected to city water and sewer facilities.	<b>MND</b>	12/12/2006
2006111060	General Plan Amendment No. 741, Change of Zone No. 7137, Tentative Tract Map No. 32291 Riverside County Planning Department --Riverside General Plan Amendment proposes to amend the site's land use designation from Community Development - Low Density Residential (CD-LDR) (1/2 acre minimum) to Community Development - Medium Density Residential (CD-MDR) (2-5 du/ac).	<b>MND</b>	12/12/2006

## CEQA Daily Log

Documents Received during the Period: 11/01/2006 - 11/15/2006

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Monday, November 13, 2006</u></b>			
	Change of Zone proposes to change the site's zoning classification from Light Agriculture - 1- acre minimum (A-1-10) and One-Family Dwelling - 20,000 square foot minimum (R-1-20,000) to One Family Dwelling (R-1). Tentative Tract Map proposes a Schedule A subdivision of 27.16 acres into 69 single family residential lots with a minimum lot size for approximately 8,000 square feet and an average lot size of approximately 12,000 square feet and three open space lots for an overall density of 2.54 dwelling units per acre.		
2006111062	Improvement District No. 1, Water System Rehabilitation Project Three Rivers Community Services District --Tulare The Improvement District No. 1 water system consists of hard rock wells, river well, pumps, water treatment plant, pipelines, and storage tanks. Many portions of this system are 50 years old. The District has been experiencing numerous leaks in the pipelines and storage tanks, resulting in significant expenditures for repairs. The area has limited groundwater supplies and the leaking system aggravates this limited water supply. The project will replace the existing distribution system, drill wells, install a steel water storage tank, valves, fire hydrants, water services, paving and appurtenances. The existing river well is treated with a pressure filter system. The new drinking water requirements do not allow the existing in-line filtration process and a pressure clarifier will need to be added upstream of the existing pressure filters. The existing filters will be inspected and repacked with new filter media if found to be necessary. The backwash from the pressure clarifier will be directed to the existing backwash water discharge from the filters and into an adjacent seasonal drainage channel. The hard rock well capacity drops off during the summer and fall months and the river well is used to supplement the flow to meet system demands. The backwash water from the existing pressure filters and proposed clarifier will be limited to times when the channel is dry. An additional 10,000 gallon polyethylene or galvanized tank will be added at the water treatment plant to increase the contact time for disinfection of the river well discharge.	<b>MND</b>	12/13/2006
2006112066	Newark Pump Station Upgrade Project Union Sanitary District Newark--Alameda The project will upgrade the existing pump station to current seismic design standards, replace and upgrade other pump station systems to provide more efficient and dependable operation, and includes a 0.15 acre site expansion for equipment access and site circulation.	<b>MND</b>	12/12/2006
2006112069	Roseburg Long-term Streambed Alteration Agreement Fish & Game #1 Weed--Shasta, Trinity, Siskiyou Long-term streambed alteration agreement that authorizes maintenance, construction and decommissioning of stream crossings, bank stabilization, water drafting and diversion, waterhole maintenance, deposit of debris, and obstruction, sediment and vegetation control and removal.	<b>MND</b>	12/12/2006

	grey water recovery, rainwater recovery, rainwater collection, use of drought tolerant native plants, and earth-friendly construction materials.		
2006112077	New Crystal Springs Bypass Tunnel Project San Francisco Planning Department Hillsborough--San Mateo Construction of a 4,200-foot tunnel containing a 96-inch pipeline for conveyance of potable water, replacing an existing pipeline with the same capacity.	<b>NOP</b>	12/12/2006
2006111056	Treatment Modification at the San Luis O&M Surface Water Treatment Plan for Compliance with the 1998 Disinfection Byproducts Rule Water Resources, Department of Los Banos--Merced The DWR proposes to install a magnapak 50 treatment unit at the existing San Luis treatment plant facilities. The unit will serve approximately 160 state employees and up to 250 daily public visitors to the Romero Overlook Visitors Center and will treat approximately 7 million gallons of water per year.	<b>Neg</b>	12/12/2006
2006111057	Public Project 2006-01 City of Avenal Chlormination Project Avenal, City of Avenal--Kings Conversion of treated surface water from free chlorine to chloramines and will involve the construction of some minor building to accomplish the chlormination.	<b>Neg</b>	12/12/2006
2006111061	Arvin Union School District Property Acquisition/District Office Arvin Union School District Arvin--Kern The proposed project involves the acquisition via eminent domain of three 5,250 square foot adjacent parcels of land totaling 15,750 square feet, and future construction and operation of a new Arvin Union School District (AUSD) Office on the site. The proposed AUSD Office will be either one-story in height and approximately 5,400 square feet in size, or two stories with 7,000 square feet. The site will include paved parking areas and landscaping and will house approximately 20 employees. The site currently contains fire damaged and condemned buildings, and will be cleared by the Redevelopment Agency.	<b>Neg</b>	12/12/2006
2006112064	Terry M. & Jean L. Weathers Tentative Parcel Map (TPM-06-12) Siskiyou County Planning Department Fort Jones--Siskiyou The applicants request Tentative Parcel Map approval to divide a 41.6-acre parcel, creating a 20.8-acre parcel and 20.8-acre remainder.	<b>Neg</b>	12/12/2006
2006112065	Carl E. & Deborah Goltz, Edward E. Goltz & Kathylene B. Goltz Trust Siskiyou County Planning Department --Siskiyou The applicants request a Zone Change for two parcels to facilitate a Boundary Line Adjustment. This application is being processed concurrently with BLA-06-24. The concurrent Boundary Line Adjustment would reconfigure two existing parcels enabling the creation of a 10.6 acre parcel and a 481.7-acre parcel. Upon approval of the Zone Change, the parcels would be in conformance with the AG-2 (Non-Prime Agricultural) and R-R (Rural Residential Agricultural) zoning designations. Parcel B is currently considered legally non-conforming with the AG-2-B-40 zoning designation.	<b>Neg</b>	12/12/2006

<b><u>Documents Received on Monday, November 13, 2006</u></b>			
2006112067	PA-0600114, Michael Majors Minor Subdivision San Joaquin County Community Development Department --San Joaquin Subdivide 326 acres into eight parcels of 40 acres or more each.	<b>Neg</b>	12/12/2006
2006112071	Tentative Tract Map TR-7722 Alameda County Hayward, Unincorporated--Alameda The applicant proposes to subdivide three parcels, totaling 7.13 acres, into five single-family lots. The area is zoned R-1-B-E (Single-Family Residence, 20,000 square-foot minimum building site) District. The lots would range in size (gross area) from 53,263 square feet to 74,513 square feet. The property slopes from the northwest side to the south east side, toward Sulphur Creek. A 200-foot PG&E easement runs across the northwest side of all five proposed parcels, and a private road running along the easement would connect the properties to Fairview Avenue through a separate lot. The homes would be located outside of the PG&E easement, between the southeast edge of the easement and Sulphur Creek.	<b>Neg</b>	12/12/2006
2006112073	TPM2005-0060 (Spiers/Shoaf) Yuba County --Yuba A proposal to subdivide 40.3 acres in to four parcels, 7.6, 7.7, 8.0, and 17.0 acres each, in the ARR-5 Zone on Rices Texas Hill Road in the Community of Oregon House.	<b>Neg</b>	12/12/2006
2006112081	Zone Amendment 06-040 and Parcel Map 06-049 - Clearwater Shasta County --Shasta The applicant proposes to amend the zoning from the Unclassified (U) zoning district to the Limited Residential (RB) zone district. The proposed zoning change is consistent with the RB general plan land use designation. In conjunction with and contingent upon the rezoning is a proposed two parcel land division of a 12.16 acre parcel resulting in parcels of five and 7.16 acres. The 7.16 acre parcel contains an existing single-family residence and accessory buildings.	<b>Neg</b>	12/12/2006
2004111125	Valley Region High School No. 4 Los Angeles Unified School District --Los Angeles The project would be a high school consisting of approximately 45 classrooms serving students in grades 9 through 12. In addition to classrooms, the school would feature facilities for performing arts/music; physical education/athletes; library/media services; food services, career center; an overlapping baseball-soccer field; six basketball courts; and space for accessory uses such as administration offices, health offices, restrooms, and storerooms. The school may provide summer school sessions and after-school programs for the students, such as athletic activities, special-interest clubs, and extra-curricular activities. The school may have nighttime events; some would be campus-wide such as sport games, school plays, and open house, while others would be grade-specific, such as commencement. The school may also provide adult and continuing education programs, which would operate weekday evenings and occasionally on Saturdays.	<b>Oth</b>

	improvements, the importation and compacting of up to 260,000 cubic yards of excess soil materials from a site contiguous to the Bouquet Canyon Project site and owned by Dentec Holding, Inc., or its successors or assigns.		
2003071197	Mountaingate Los Angeles City Planning Department --Los Angeles The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0745-R5 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Castle & Cooke California, Inc. will alter the streambed by grading and filling along Stoney Hill and Canyonback ridge. A total of 1.24 acres of jurisdictional area will be impacted by the project.	<b>NOD</b>	
2004071036	Compton Tentative Parcel Map San Diego County Department of Planning and Land Use Fallbrook--San Diego The project is the proposal for a minor subdivision of approximately 8.5-acres for the creation of 4 parcels and a remainder parcel for single-family residential development.	<b>NOD</b>	
2005111025	Precise Plan of Design No. 2005-0009; Loma Linda University Centennial Complex Loma Linda, City of San Bernardino--San Bernardino The project is a request to redesign the Thermal Energy Storage (TES) tank in size and dimension from the approved 90 feet in height by 90 feet in diameter to 67 feet in height by 136 feet in diameter located at northeast corner property of Stewart Street and Anderson Avenue. The modification is required per OSHPD requirements for safety and university's long-term maintenance concerns such as the potential for rust, cracks due to earth shifts, ground vibrations from adjacent rail line movements, and general maintenance of the subterranean section of the tank. Additionally, the increase in capacity will provide chilled water throughout the university facilities and reduce in energy consumption. The proposal meets the intent of the original scope of the project and all mitigation measures will apply and help to minimize any potential impacts. The proposal site is the most appropriate location for institutional use including increased height and width by adding additional landscaping and muted tank color to minimize visual impact.	<b>NOD</b>	
2006041024	Wastewater Treatment Plant Expansion Project Delano, City of Delano--Kern Expand treatment capacity from 4.4 mgd to 8.8 mgd, construct 12,500 linear feet of effluent pipeline and 30,000 linear feet of trunk sewer line, and excavate a 30 acre percolation/evaporation pond.	<b>NOD</b>	
2006061045	Belmont Village Encinitas, City of Encinitas--San Diego Case No. 05-148, Belmont Village, is a privately initiated Major Use Permit, Design Review Permit, and Coastal Development Permit to construct a 147-unit senior housing facility.	<b>NOD</b>

2006111071	Maintenance Area Expansion Kerman Unified School District Kerman--Fresno The project consists of the expansion of the existing maintenance area of Kerman Unified School District. The expansion will occur on a 0.15 acre site, located northeast of the intersection of S. 9th Street and D Street in Kerman. The property is a corner lot parcel, surrounded completely by wire fencing and it has one dwelling located on it which is currently occupied. Besides for the adjacent KUSD facilities, the property is located in a residential neighborhood and the property itself is zoned for residential use. The current KUSD maintenance facility is located to the west of the proposed expansion area and is 0.0 acres in size. Directly to the east of the property is an occupied residence that is separated by a wire fence.	<b>CON</b>	11/29/2006
2005041138	Castaic Lake Water Agency's Recycled Water Master Plan (RWMP) Castaic Lake Water Agency Santa Clarita--Los Angeles CLWA proposes to develop and construct a recycled water system to serve the Santa Clarita Valley in an attempt to reduce the present and future demands on its potable water supplies.	<b>EIR</b>	12/28/2006
2005092102	Promenade Shops at Orchard Valley Manteca, City of Manteca--San Joaquin The proposed project would be an approximately 746,740 square-foot commercial Lifestyle Center on 72 acres including retail, restaurants, a health club, movie theaters, office space, and a hotel. In general, a lifestyle center includes attributes that would support an upscale, open-air shopping center development format for quality retail, restaurants, and national specialty chain stores. The project would be developed as a Planned Development (PD) with specific development conditions and standards for future development, as defined in Section 17.45 of the City's Municipal Code. Such conditions and standards relate to architectural design, landscaping, signage, and parking requirements. The proposed PD is intended to provide a unified and visually appealing development for all uses and tenants of the site while allowing variety and flexibility within the defined framework of restrictions. Implementation of the project would require the removal of all existing uses and structures located on-site. The project would require a General Plan land use designation amendment and zoning amendment for the project site.	<b>EIR</b>	12/28/2006
2001121105	SP 327 and Change of Zone No. 6651 - Toscana Riverside County Planning Department Corona, Lake Elsinore--Riverside Change of Zone No. 6651 is a proposal to change the zoning classifications of the subject property from Natural Assets (NA) and Water Course, Watershed and Conservation Area (W-1) to Specific Plan (SP).  Specific Plan No. 327 is a specific plan of land use on 960 acres of land within the Temescal Canyon area of unincorporated Riverside County, CA. The project falls within the Temescal Canyon Area Plan (TCAP). Of the 960 acres, 353.29 acres will be designated for 1,443 residential dwelling units. 22.30 acres will be designated for recreational uses. 70 acres will be used as fuel modification zones. 510 acres will be preserved as open space.	<b>FIN</b>

2006031055	Olson Company Residential Development at Signal Hill Signal Hill, City of Signal Hill--Los Angeles Demolition of existing commercial and industrial buildings and construction of 54 townhome style condominium dwellings with private, attached garages. Includes general plan and zoning ordinance amendments to allow residential development.	<b>FIN</b>	
2006111065	Griggs Nursery Site General Plan Amendment, 1021 David Avenue Pacific Grove, City of Pacific Grove--Monterey Proposed project is a change to the General Plan designation from Neighborhood Commercial to Medium Density Residential.	<b>MND</b>	12/13/2006
2006111068	Parcel Map PM-17330 and General Plan Amendment GPA-2006-08 Hesperia, City of Hesperia--San Bernardino A parcel map to create four single-family residential lots on 3.9 gross acres and a General Plan amendment to change the designation from Special Development (SD) and Open Space (OS) to Low density (L) residential. The subdivision will have a density of 1.03 lots per acre. All lots will be a minimum of 18,000 square feet in size. On-site retention will be handled on each parcel, consistent with City policy.	<b>MND</b>	12/13/2006
2006111069	Tentative Tract Map TT-17736 Hesperia, City of Hesperia--San Bernardino A tentative tract map to create 18 single-family residential lots and one lot for retention on 10.0 gross acres. The tract will have a density of 1.8 lots per acre. All lots will be a minimum of 18,000 square feet in size.	<b>MND</b>	12/13/2006
2006111072	Santa Clarita Sports Complex Expansion Santa Clarita, City of Santa Clarita--Los Angeles The proposed Sports Complex expansion project would expand the park facilities on the remaining 38 acres of the City's 60-acre Sports Complex site. The proposed project includes the development of a number of playing fields, a small amphitheatre, a gymnasium, a skate park, a dog park, a children's playground, and other recreational features as well as an internal roadway and parking areas.	<b>MND</b>	12/13/2006
2006111074	Old Creek Road Bridge Crossing Improvement Project Ventura County --Ventura The County of Ventura, in cooperation with the California Department of Transportation, the Federal Highway Administration, and the California Department of Fish and Game, proposes to replace the Old Creek Road crossing over San Antonio Creek. The proposed project would replace the existing dry-weather crossing with a two-lane, multi span bridge across the creek. The proposed project would take place on Old Creek Road approximately 300-feet east of SR-33 near the community of Oak View in Ventura County. The purpose of the Old Creek Road Bridge Crossing Improvement Project is to improve the safety and operation of the bridge over San Antonio Creek. Specific objectives of the proposed project include improving local access and circulation, enhancing vehicle safety while crossing the creek, and enhancing the passage of steelhead trout in San Antonio Creek.	<b>MND</b>	12/14/2006

2003121164	<p>Specific Plan No. 00336 (Desert Dunes Specific Plan), Change of Zone No. 06876 and Environmental Impact Report No. 00455 Riverside County Planning Department Desert Hot Springs--Riverside</p> <p>The specific plan is a master planned community of 478 acres in the Western Coachella Valley Planning Area. The project is composed of 2,250 dwelling units on 314.5 acres. In addition, the project incorporates 10.1 acres of recreation area (recreation center), 76.0 acres for regional flood control management, which will protect the subject property from the impacts of the 100-year floodplain caused by off-site watersheds to the north. The project also includes 25.0 acres south of 20th Avenue, which will include a 150-foot by 150-foot sanitary sewer lift station with the balance of this acreage to remain open space and mitigation land. The project also includes approximately 52.40 acres of transportation improvements, including 11.6 acres to be dedicated for public right-of-way. The change of zone proposes to change the current zoning classification from Controlled Development Area (W-2) to Specific Plan (SP) and develop the SP zoning ordinance. The environmental impact report has been prepared to inform decision-makers and the public of the potential significant environmental effects associated with the proposed development of residential and non-residential uses on the project site.</p>	<b>NOD</b>	
2005032019	<p>Pleasant Oak Main Replacement El Dorado Irrigation District --El Dorado</p> <p>The project consists of replacing approximately 5.5 miles of existing 24" to 30" Techite pipeline with 36" mortar lined and coated steel pipeline. A section of the lateral pipe alignment, approximately 285 feet long, has been realigned to parallel the existing pipe.</p>	<b>NOD</b>	
2005042024	<p>Shelter Cove Breakwater Rehabilitation Humboldt Bay Harbor Unincorporated--Humboldt</p> <p>The Humboldt Bay Harbor, Recreation, and Conservation District proposes to rehabilitate in-place the existing Shelter Cove breakwater to restore its effectiveness. The project is located on the coastline of southern Humboldt County. Since its completion in the late 1970s, the rock breakwater has settled and lost rocks as a result of wave action, such that the breakwater is largely under water at high tide and its effectiveness at protecting the boat launching facility has been greatly compromised. The proposed project is Alternative 1 described in the Engineering Feasibility Study conducted for the project. Alternative 1 will repair the breakwater in essentially its current configuration to provide similar dimensions, level of protection, and protected area as it did originally prior to its deterioration to its current condition. The rehabilitated breakwater will be sturdier than the original to better withstand wave forces.</p>	<b>NOD</b>

2005011105	Golden Oak Ranch, CUP 04-089 Los Angeles County Department of Regional Planning --Los Angeles Continued use of the site for movie filming and movie set construction in addition to typical agricultural activities consistent with the operation of a ranch. Relocation of driveway requiring removal of 14 oak trees and encroachment into the protected zone of 5 oak trees.	<b>Neg</b>	12/14/2006
2006111076	Inland Empire Utilities Agency (IEUA) Magnolia Channel Improvement Project Inland Empire Utilities Agency Chino--San Bernardino The IEUA, in conjunction with the City of Chino, County of Orange, County of San Bernardino, and other agencies and private parties, is proposing to provide an additional use of the recycled water and make habitat, flood control, and water quality improvements to Magnolia channel as part of this project. The project will be implemented in phases which include improvements to the Magnolia channel and a portion of the channel southerly of El Prado Road, as well as, create and enhance native habitat and improve surface water quality in Magnolia Channel and the Prado Basin in general.	<b>Neg</b>	12/14/2006
2006111078	Fink New Residence Santa Barbara County --Santa Barbara The requested Coastal Development Permit with Hearing (CDH) is for construction of a new single-family dwelling with stone façade exterior of approximately 7,551 square feet (upper floor approximately 4,096 sq. ft. basement floor of approximately 3,455 sq. ft., and attached cabana of approximately 689 sq. ft.) with a maximum height as calculated per County standards of 16 feet, attached decks and court yard areas, motor court, attached garage of approximately 768 sq. ft., and a detached guest house of approximately 712 sq. ft. with a maximum height as calculated per County standards of 16 feet. A 6 foot high metal fence would be placed just inside the bluff-top setback spanning from the western entry gate to the pool terrace, and landscaping.	<b>Neg</b>	12/14/2006
2006112095	Smucker Quality Beverages Use Permit (File # UP06-0020) Butte County Chico--Butte A use permit to expand an existing beverage production business. The expansion is composed of three primary elements: (1) a 22,000 square foot cold storage facility; (2) a proposed parking area that will include 112 new employee automobile parking spaces; and (3) a truck delivery route, limited to the hours between 6:00 am and 9:00 pm, will be located through the proposed new parking area.	<b>Neg</b>	12/14/2006
2006112096	Collins-Estate Annexation Ceres, City of Ceres--Stanislaus The proposed project would annex 11 acres to the City of Ceres, and redesignate and rezone the area consistent with City designations. This would increase the potential for residential development by approximately 153 units, and for commercial development by approximately 17,500 square feet and industrial development by 25,000 square feet. The area is surrounded by the City on 3 sides and is already provided with some City services.	<b>Neg</b>	12/14/2006

	facilities, fitness center, administration and support areas and 193 senior residential living units. The project request includes a Comprehensive Plan amendment from Light Industrial to Mixed Use, a Tentative Map to subdivide the parcel and create senior housing condominium units, a Variance to exceed the 50-foot height limit, a Design Enhancement Exception (DEE) to allow a sculptural tower element to extend to approximately 96 feet above grade and certification of the FEIR.		
	[06PLN-00031, 06PLN-00050]: Request for rezoning to a Planned Community (PC) District and of a proposed PC district development plan, which includes the development of 103 units of for-sale town home style residences and 56 senior affordable residences, a parking garage, and landscaping improvements. The project request includes a Comprehensive Plan amendment from Light Industrial to Mixed Use, a Tentative Map to subdivide the parcel and create condominium units, and certification of the FEIR.		
2006032075	Westley - Marshall Substation and Transmission Line Project Turlock Irrigation District Patterson--Stanislaus The Turlock Irrigation District (TID) is planning the construction and operation of two new substations and transmission facilities. Proposed facilities include: - A double-circuit 115-kV transmission line between the existing Marshall Substation located on Marshall Road east of Ward Avenue adjacent to the Delta-Mendota Canal and the proposed Westley Substation to be located on the south side of the existing MID/TID 230 kV Westley Switching Station. Two alignments were considered in the EIR (Segments 1 plus 3 or Segments 2 plus 3). - A double-circuit 115-kV transmission line connecting either transmission line Segments 1 plus 3, or 2 plus 3 with a second proposed substation to be located between Donkin Road to the north and Sperry Avenue to the south, and between the Delta-Mendota Canal to the west and Baldwin Road to the east. Nine substation sites were considered in the EIR. To provide connections to the 9 sites, transmission line segments A through M were considered to connect the new transmission line to the new substation.	<b>NOD</b>	
2006061170	Our Lady Queen of Angels Church Expansion Newport Beach, City of Newport Beach--Orange OLQA proposes to expand their existing church and school facilities by relocating its church to the adjacent property located at 2100 Mar Vista Drive and expanding its school within its existing boundaries at 2046 Mar Vista Drive. The expansion includes the construction of a 1,170-seat sanctuary, additional classrooms, and a 9,922 square foot gymnasium.	<b>NOD</b>	
2006071082	Conditional Use Permit 2005-257 Big Bear Lake, City of Big Bear Lake--San Bernardino New construction of a 12,581 square foot retail pharmacy and prescription pick-up drive-thru lane on the 1.5 acre property in the Commercial-General (C-2) zone.	<b>NOD</b>

2006072041	Earl and Ken Joling Siskiyou County Planning Department Yreka--Siskiyou The applicants request Zone Change approval to rezone a 2-acre parcel from R-R (Rural Residential Agricultural) to C-H (Highway Commercial), bringing the existing use into conformance with zoning.	<b>NOD</b>	
2006092032	Willow Street / Central Avenue Sewer Rehabilitation Project Union Sanitary District Newark--Alameda The project is located along Willow Street, Morton Avenue, and Central Avenue within the City of Newark. The trunk sewer has suffered hydrogen sulfide corrosion requiring rehabilitation. Rehabilitation will be by the Cured-In-Place-Pipe method which utilizes existing manhole entrances.	<b>NOD</b>	
2006102006	Long Term Water Transfer from Anderson-Cottonwood Irrigation District to Shasta Community Services District Anderson-Cottonwood Irrigation District Redding--Shasta ACID has proposed to transfer 464 acre feet of federal Central Valley Project water to SCSD to be diverted annually under ACID's Federal Contract No. 14-06-200-3346A-R-1. The total of 464 acre feet will be transferred and utilized by SCSD in order to meet existing and future municipal and industrial needs as outlined in the SCSD Master Water Plan 2003.	<b>NOD</b>	
2006102026	Proposed Extension Petition for the Interim Flow Requirements Under State Water Resources Control Board Revised Water Right Decision 1644 Yuba County Water Agency Marysville--Yuba Yuba County Water Agency (YCWA) is submitting a petition to modify the terms of YCWA's water right permits to change the effective date of RD-1644 long-term instream flow requirements from March 1, 2007 to April 1, 2008. Additionally, pursuant to Water Code §1725, YCWA and the California Department of Water Resources (DWR) propose to conduct a one-year water transfer for 2007 (March 2007 through December 2007). The proposed project would enable a one-year water transfer of up to 125,000 acre-feet of water from YCWA to DWR, which would provide YCWA a source of revenue and assist DWR in meeting a substantial portion of the Environmental Water Account Program asset acquisition goal for 2007. The proposed project involves YCWA transferring water from New Bullards Bar Reservoir via the Yuba River Development Project (Yuba Project) facilities to DWR via the lower Yuba River, lower Feather River, Sacramento River, and the Delta.	<b>NOD</b>	
2006102032	Stebbins Property Granada Sanitary District --San Mateo The project consists of development of a 12,000 square foot parcel, which includes the construction of a 4,356 square foot single-family residence with an attached 496 square foot garage. The project also includes the extension of a 90-foot sewer main and a 45-foot water main to serve the new home.	<b>NOD</b>
